# ARKIA GROUP

IRANIAN BITUMEN WORLDWIDE TRADING

JEY & PASARGAD

2006

ARKIA GROUP is a prominent economic entity comprising ACP, AOP, and ATR companies, with its headquarters in Tehran, Iran. Established in 2006, ARKIA GROUP is actively involved in the export of various grades of bitumen from the JEY and PASARGAD refineries in bulk jumbo bags, steel drums (embossed), flexibag, and bitutainer. Recognized as a reliable supplier, we take pride in our successful export of Bitumen to various countries including India, East and West Africa, the Persian Gulf region, East Asia, Indonesia, and European countries. Our primary global bitumen market strategy involves investing in bulk quantities and establishing long-term business agreements to secure a significant share as a highly reliable and reputable supplier. Additionally, Arkia Group is fully equipped to provide other Iranian petroleum products and is actively involved in importing raw materials as well as trucks.

Iran is known for producing high-quality bitumen, which makes it the leading exporter of this product globally. The bitumen produced in Iran has a reputation for its excellent quality and has been widely exported to regions such as the Middle East, South and East Asia, Africa, and Europe. The country's success in the bitumen export industry can be attributed to its ability, to produce this product with consistent quality adhering to international standards. This has allowed Iran to establish itself as a reliable and trustworthy supplier of bitumen, with a growing global demand.

ARKIA GROUP facilitates the export of high-quality bitumen from Iran to multiple countries across the globe. Upon completion of local customs clearance, the product is promptly delivered to customers within the specified target markets.
